\*prodotti Spaggiari sono parti di ricambio adattabili. Qualsiasi riferimento ad altri nomi di produttori originali, marchi e nomi di prodotti originali o riferimenti è da intendersi ai fini di identificare la compatibilità della parte di ricambio Spaggiari con detti prodotti e non implica che Spaggiari abbia ricevuto l'approvazione o autorizzazione da detti produttori originali a produrre e distribuire detti prodotti. Marchi e nomi di prodotti non Spaggiari, sono da intendersi proprietà degli stessi ed utilizzati come solo riferimento in conformità Art. 21 comma 1 c) CPI.

# Quality since 1953

Spaggiari Industria Gomma è un'azienda italiana situata nel cuore dell'Emilia Romagna. L'esperienza e la competenza maturate in 70 anni di attività hanno portato Spaggiari ad affermarsi nel panorama nazionale e internazionale come punto di riferimento nella lavorazione e fornitura di articoli in gomma.

Siamo il primo produttore a livello mondiale per ampiezza di gamma di prodotti in gomma destinati alla zootecnia.

Spaggiari Industria Gomma est une entreprise italienne située au cœur de l'Émilie Romagne. L'expérience et la compétence acquises en 70 ans d'activité ont porté Spaggiari à s'affirmer dans le panorama italien et international comme référence dans le domaine du traitement et de la fourniture d'articles en caoutchouc.

Nous sommes le premier producteur, au niveau mondial, en termes d'importance de la gamme de produits en caoutchouc destinés à la zootecnie.

Spaggiari Industria Gomma ist ein italienisches Unternehmen, das sich im Herzen der Emilia-Romagna befindet. Die in über 70 Unternehmensjahren gereifte Erfahrung und Kompetenz haben dazu geführt, dass Spaggiari sich auf nationaler und internationaler Ebene als Bezugspunkt im Bereich der Verarbeitung und Lieferung von Gummartikeln etabliert hat.

Wir nehmen auf Weltebene die erste Position bezüglich der Größe der Palette an für den Viehzuchtbereich vorgesehenen Gummiprodukten ein.

MILKINGS**

La prima miscela tecnicamente evoluta che garantisce un'aspettativa media di vita di 1000 ore di mungitura o 3000 mungiture.

Le premier mélange avant-gardiste, au niveau technique, qui assure une durée de vie moyenne de 1000 heures de traite ou 3000 traites.

Das erste technisch hochentwickelte Gemisch, das eine Durchschnittslebenserwartung von 1000 Melkstunden oder 3000 Melkvorgängen gewährleistet.

**NEW PACKING**

**Tutti i modelli di guaine sono disponibili nella versione ventilata**  
**Tous les modèles de manchons sont disponibles en version ventilée (avec vent)**  
**Alle Gummi-Modelle sind in der belüfteten Version (mit Belüftung) erhältlich**

**VENT  
OPTION**

**spaggiari**

# O-PURE

Esternamente, più resistente alle condizioni aggressive della stalla.

Un doppio strato, internamente idoneo al contatto con gli alimenti secondo la normativa BfR europea.

BfR

Spaggiari prosegue il trend di innovazione tecnologica e presenta **O-PURE**, il tubo coestruso che unisce i vantaggi di due compound prodotti congiuntamente.

Un doppio strato: internamente idoneo al contatto con gli alimenti secondo la normativa BfR (Europea), ed esternamente più resistente alle condizioni aggressive della stalla.

Spaggiari suit la tendance de l'innovation technologique et présente **O-PURE**, le tuyau coextrudé associant les avantages de deux éléments produits conjointement. Une double couche à l'intérieur adaptée au contact alimentaires conformément aux réglementations BfR (Européenne), et à l'extérieur plus résistante aux conditions agressives de l'étable.

Spaggiari setzt den Trend der technologischen Innovation fort und stellt **O-PURE** vor, den co-extrudierten Schlauch, der die Vorteile zweier Produktgemische miteinander vereint. Eine Doppelschicht, die innen, gemäß der Anforderung BfR (Europa), für den Kontakt mit Lebensmitteln geeignet ist und außen widerstandsfähiger gegenüber den aggressiven Bedingungen des Stalls ist.

**NO PHTHALATES**  
IN COMPLIANCE WITH REACH-SVHC LIST

## Spaggiari non utilizza ftalati Spaggiari n'utilise pas de phtalates Spaggiari verwendet keine Phthalate

La presenza del nostro marchio nel prodotto certifica che la progettazione e la realizzazione sono avvenute in conformità alla direttiva UE 2002/72/CE e 76/769/CE sulla restrizione dell'uso di cloruro di polivinile (PVC), cloruro di vinile e di miscele di PVC e ftalati 7P.

La présence de notre marque certifie que la conception et la réalisation ont été effectuées conformément à la directive européenne 2002/72/CE et 76/769/CE concernant la restriction de l'utilisation de chlorure de polyvinyle (PVC), chlorure de vinyle et de mélanges de PVC et phtalates 7P.

Das Vorhandensein unseres Markenzeichens bescheinigt, dass die Konzipierung und Erstellung in Übereinstimmung mit den EU-Richtlinien 2002/72/CE und 76/769/CE zur Beschränkung der Verwendung von Polyvinylchlorid (PVC), Vinylchlorid und Gemischen aus PVC und 7P-Phthalaten erfolgten.

1.500 HOURS  
OR 5.000  
MILKINGS

La vita media per le tettarelle in silicone è di 1.500 ore o 5.000 mungiture.

Per una performance ottimale delle guaine in silicone raccomandiamo fortemente l'utilizzo di bossoli e collettori in plastica di maniera tale da minimizzare i rischi di taglio e lacerazione delle tettarelle dovuti a rifiniture approssimative dei materiali in acciaio inox.

La durée de vie moyenne des tétines en silicone est de 1.500 heures ou 5.000 traites.

Pour une performance optimale des manchons en silicone, nous recommandons fortement d'utiliser des gobelets et griffes en plastique de façon à minimiser les risques de coupe et laceration des tétines dus à des finitions peu soignées des éléments en acier inox.

Die durchschnittliche Lebensdauer von Silikonzitzengummis beträgt 1.500 Stunden oder 5.000 Melken.

Für eine optimale Leistung der Silikonzitzengummis empfehlen wir dringend die Verwendung von Kunststoffhülsen und -sammelstücken, um die Schnitt- und Reißrisiken der Zitzengummis durch unpräzise Endverarbeitungen der Edelstahlmaterialien zu minimieren.

## Silicone. Delicatamente performante Le silicone, délicatement performant. Silikon - Sanft, aber leistungsfähig.

Le guaine in silicone consentono:

- Una mungitura estremamente delicata data la morbidezza del materiale.
- Una formulazione totalmente igienica.
- Un lavaggio e sanitizzazione a temperature elevate >100°.

Les manchons en silicone permettent :

- Une traite extrêmement délicate compte tenu de la douceur du matériau
- Une conception hygiénique.
- Un lavage et un assainissement à des températures élevées >100°C.

Die Zitzengummis aus Silikon gestatten :

- Ein angesichts der Weichheit des Materials ausgesprochen sanftes Melken.
- Ein hygienisches Gemisch.
- Ein Reinigen und Desinfizieren bei hohen Temperaturen >100°C.

# ACCESSORI GUAINE

## ACCESSOIRES POUR MANCHONS

### ZUBEHÖRTEILE ZITZENGUMMIS

**Il visore o bicchierino** da la possibilità di visualizzare lo scorrimento del latte tra la guaina corta ed il tubetto del latte.

**Verre** - Le viseur offre la possibilité de visualiser l'écoulement du lait entre le manchon court et le tuyau du lait.

**Becher** - Das Schauglas oder der Becher verleiht die Möglichkeit, das Fließen der Milch zwischen dem kurzen Zitzengummi und dem Milchschlauch anzuzeigen.

**Il protettore** tutela una delle parti della tettarella sottoposte a maggior stress chimico e calpestii da parte delle vacche. La sezione conica interna lo rende adattabile alla maggior parte delle guaine in commercio.

**Protecteur** - Le protecteur protège parties de la tétine soumise au stress chimique le plus important et aux écrasements de la part des vaches. Sa section conique intérieure permet de l'adapter à la plupart des manchons disponibles dans le commerce.

**Schutz** - Der Schutz sichert einen der Teile des Zitzen-gummis, die am stärksten chemischem Stress und Tritten durch die Kühe ausgesetzt sind. Durch den konischen inneren Querschnitt lässt er sich an die meisten im Handel erhältlichen Zitzengummis anpassen.

**Stopper.** Elemento che **sostituisce la mammella** quando questa non può essere utilizzata.

**Stopper** - Element qui substitue la mamelle lorsque celle-ci ne peut pas être utilisée.

**Stopper** - Element, dass die Zitze ersetzt, wenn sie nicht verwendet werden kann.

# BOSSOLI

## Gobelets HÜLSEN

**Bossolo.** Il cannello in plastica trasparente permette all'allevatore di monitorare visivamente lo stato di stress della guaina di mungitura e verificare eventuali fuoriuscite di latte all'interno del porta guaina.  
**Infrangibile.**

**Gobelet.** Le gobelet en plastique transparent permet à l'éleveur de contrôler visuellement l'état de stress du manchon trayeur et de vérifier la présence éventuelle de fuites de lait à l'intérieur en cas de rupture.  
**Incassable.**

**Hülse.** Die transparente Kunststoffleitung gestattet dem Viehzüchter eine Sichtkontrolle der Belastung der Zitzengummis vorzunehmen und eventuelles Austreten von Milch in der Zitzengummihalterung bei Defekt zu überprüfen.  
**Unzerbrechlich.**

\*Spaggiari items are NOT original but interchangeable. References to other manufacturers by their company names, trademarks or product references are for identification purposes and adaptability OF SPAGGIARI'S SPARE PARTS with such products and does not indicate that Spaggiari has received approval from or the authorization of such third parties to produce or distribute such products. Trademarks, company names and product (non Spaggiari), are property of their respective owners and used in compliance to art. 21 clause 1 c) CPI.  
\*I prodotti Spaggiari sono parti di ricambio adattabili. Qualsiasi riferimento ad altri nomi di produttori originali, marchi e nomi di prodotti originali o riferimenti è da intendersi ai fini di identificare la compatibilità della parte di ricambio Spaggiari con detti prodotti e non implica che Spaggiari abbia ricevuto l'approvazione o l'autorizzazione da detti produttori originali a produrre e distribuire detti prodotti. Marchi e nomi di prodotti non Spaggiari, sono da intendersi come riferimenti ai soli nomi e utilizzati come solo riferimento in conformità Art. 21 comma 1 c) CPI.  
Our spare parts are NOT ORIGINAL but interchangeable. Original numbers and descriptions used in this catalogue are for identification purposes only.

\*Spaggiari items are NOT original but interchangeable. References to other manufacturers by their company names, trademarks or product references are for identification purposes and adaptability OF SPAGGIARI'S SPARE PARTS with such products and does not indicate that Spaggiari has received approval from or the authorization of such third parties to produce or distribute such products. Trademarks, company names and product (non Spaggiari), are property of their respective owners and used in compliance to art. 21 clause 1 c) CPI.  
\*I prodotti Spaggiari sono parti di ricambio adattabili. Qualsiasi riferimento ad altri nomi di produttori originali, marchi e nomi di prodotti originali o riferimenti è da intendersi ai fini di identificare la compatibilità della parte di ricambio Spaggiari con detti prodotti e non implica che Spaggiari abbia ricevuto l'approvazione o l'autorizzazione da detti produttori originali a produrre e distribuire detti prodotti. Marchi e nomi di prodotti non Spaggiari, sono da intendersi come riferimenti ai fini di identificare la compatibilità della parte di ricambio Spaggiari con detti prodotti. Marchi e nomi di prodotti non Spaggiari, sono da intendersi come riferimenti in conformità Art. 21 comma 1 c) CPI.

Our spare parts are NOT ORIGINAL but interchangeable. Original numbers and descriptions used in this catalogue are for reference only.

# POMPE VUOTO A OLIO

## POMPE À VIDE À HUILE

### VAKUUM-ÖLPUMPEN

#### ANNOTAZIONI:

- Le pompe PV NUDE sono solo con la pompa, i piedini di supporto e i beccucci di ottone dell'olio
- Le pompe PV (solo Pompa Vuoto) sono comprese di puleggia, oliatore, silenziatore, manicotto entrata e valvola di non ritorno
- Le GPV (Gruppo Pompa Vuoto) su mensola o serbatoio sono comprese di tutto
- Le GPV (Gruppo Pompa Vuoto) senza motore, sono complete di tutto escluso motore, assieme vengono forniti la puleggia motore e la cinghia di trasmissione. Al momento dell'ordine delle GPV senza motore bisogna specificare il tipo di motore che si andrà ad installare, per fornire la giusta puleggia
- Nella GPV 3300/2200 viene incluso il separatore olio/aria e la ventola
- I serbatoi sono totalmente in acciaio zincato a caldo. Le pompe sono montate su mensole antivibranti. Per le GPV 1500/1000/750/500 il separatore è un supplemento
- Tutte le pompe del vuoto sono a norma CEE e vengono corredate di un manuale d'uso che troverete all'interno della macchina
- Sulle pompe e sul manuale è riportato il numero di serie, modello e data di costruzione (importante per la garanzia)
- La garanzia ha validità un anno dalla data del manuale e dalla data riportata sull'etichetta CEE. La garanzia non copre difetti causati da un'errata installazione o da un utilizzo diverso da quello previsto. La garanzia è limitata alla riparazione o sostituzione del particolare difettoso. È esclusa in ogni caso la responsabilità per danni accessori che possano dipendere dal fermo macchina. Tutte le parti elettriche sono escluse dalla garanzia
- Tutte le GPV su serbatoio sono incluse di filtro interno
- Uscite serbatoi: lt. 65 2"-63 mm – lt. 85 3"-90 mm – lt. 110 4" – 110 mm

#### REMARQUES:

- Les pompes PV NUDE sont fournies avec uniquement la pompe, les pieds de support et les becs d'huile en laiton
- Les pompes PV (seulement Pompe à Vide) sont dotées de poulie, huileur, silencieux, manchon d'arrivée et clapet anti-retour
- Les GPV (Groupe Pompe à Vide) sur support ou réservoir sont fournis entièrement équipés.
- Les GPV (Groupe Pompe à Vide) sans moteur, sont entièrement équipés à l'exception du moteur, la poulie du moteur et la courroie de transmission sont également fournies. Lors de la commande des GPV sans moteur, il est nécessaire de préciser le type de moteur à installer, afin de fournir la bonne poulie
- Le GPV 3300/2200 est doté du séparateur huile/air et de la turbine.
- Les réservoirs sont entièrement réalisés en acier galvanisé à chaud. Les pompes sont montées sur des supports anti-vibrations. Pour les GPV 1500/1000/750/500, le séparateur n'est pas inclus.
- Toutes les pompes à vide sont conformes aux normes CEE et sont fournies avec un manuel d'utilisation qui se trouve à l'intérieur de la machine - Le numéro de série, le modèle et la date de construction sont indiqués sur les pompes et dans le manuel (important pour la garantie).
- La garantie est valable un an à compter de la date du manuel et de la date indiquée sur l'étiquette CEE. La garantie ne couvre pas les défauts causés par une mauvaise installation ou une utilisation différente que celle prévue. La garantie est limitée à la réparation ou au remplacement de la pièce défectueuse. Dans tous les cas, la responsabilité pour les dommages accessoires pouvant dépendre de l'arrêt de la machine est exclue. Toutes les pièces électriques sont exclues de la garantie
- Tous les GPV sur réservoir sont dotés d'un filtre interne
- Sorties des réservoirs: lt. 65 2"-63 mm – lt. 85 3"-90 mm – lt. 110 4" – 110 mm

#### ANMERKUNGEN:

- Die PV NUDE-Pumpen umfassen nur die Pumpe, Stützfüße und Messing-Ölausläufen
- Die PV-Pumpen (nur Vakuumpumpe) umfassen Riemenscheibe, Öler, Schalldämpfer, Einlassnuffe und Rückschlagventil
- Die GPV (Vakuumpumpengruppe) im Regal oder Tank sind bei allem dabei
- Die GPV (Vakuumpumpengruppe) ohne Motor sind komplett mit allem außer dem Motor, der Motorriemenscheibe und dem Antriebsriemen werden zusammen geliefert. Wenn Sie das GPV ohne Motor bestellen, müssen Sie den Typ des zu installierenden Motors angeben, um die richtige Riemenscheibe bereitzustellen
- Der Öl-/Luftabscheider und der Lüfter sind im GPV 3300/2200 enthalten
- Die Tanks sind vollständig aus feuerverzinktem Stahl. Die Pumpen sind auf Schwingungsdämpfern montiert. Bei GPV 1500/1000/750/500 ist der Trenner eine Ergänzung
- Alle Vakuumpumpen entsprechen den EWG-Normen und werden von einer Bedienungsanleitung begleitet, die Sie in der Maschine finden - Die Pumpen und die Anleitung enthalten die Seriennummer, das Modell und das Baujahr (wichtig für die Garantie)
- Die Garantie gilt für ein Jahr ab dem Datum des Handbuchs und dem auf dem EWG-Etikett angegebenen Datum. Die Garantie erstreckt sich nicht auf Mängel, die durch falsche Installation oder nicht bestimmungsgemäße Verwendung verursacht wurden. Die Gewährleistung beschränkt sich auf die Reparatur oder den Ersatz des defekten Teils. In jedem Fall ist die Haftung für Zubehörschäden, die auf Maschinenstillstand zurückzuführen sein können, ausgeschlossen. Alle elektrischen Teile sind von der Garantie ausgeschlossen
- Alle GPV am Tank sind mit internem Filter enthalten
- Tankausgänge: lt. 65 2"-63 mm – lt. 85 3"-90 mm – lt. 110 4" – 110 mm

# FILTRI A CALZA - MANICHETTA FILTRANTE

## FILTRES CHAUSSETTE - FILTRE MANCHE (OUVERT DEUX COTÉ)

### FILTERTASCHEN

A fronte di un lotto minimo i filtri a calza possono essere realizzati in tutte le misure  
 Pour un lot minimum, les filtres chaussettes peuvent être réalisés dans toutes les tailles  
 Für eine Mindestmenge können die Filter in allen Größen hergestellt werden

I filtri per latte sono concepiti e creati con materiali espressamente sviluppati per la filtrazione del latte. La lavorazione tramite l'ausilio di macchine robotizzate permette una **cucitura con precisione millimetrica** tale da garantire un'eccellente resistenza alla rottura anche ad elevate pressioni.

Les filtres à lait à poche ont été conçus et créés avec des matériaux expressément développés pour la filtration du lait. Le travail avec des machines robotisées permet **une couture avec une précision millimétrique** en mesure d'assurer une excellente résistance à la rupture, même à des pressions élevées.

Die Milchfiltertaschen wurden mit eigens für das Filtern von Milch entwickelten Materialien konzipiert und geschaffen. Die Verarbeitung mit Hilfe von robotisierten Maschinen gestattet **ein so millimetergenaues Nähen**, dass eine hervorragende Bruchfestigkeit auch bei hohem Druck garantiert wird.

# FILTRI LATTE ROTONDI

## FILTRES RONDS

### RUNDE FILTER

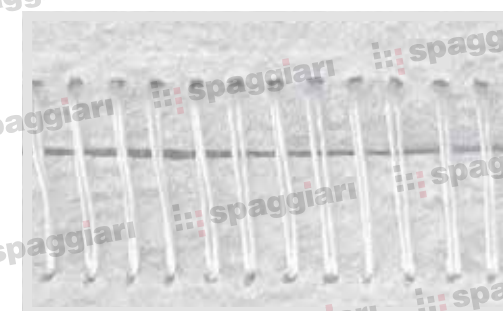

La **struttura microscopica** del filtro è stata ideata per ottenere il miglior rapporto tra la ritenzione dei corpi estranei e deflusso del latte.

La **structure microscopique** du filtre a été pensée pour obtenir le meilleur rapport entre la rétention des corps étrangers et l'écoulement du lait.

Die **Mikroskopstruktur des Filters** wurde konzipiert, um das beste Verhältnis zwischen Rückhalt von Fremdkörpern und Abfließen der Milch zu erhalten.

MEMBRANA PER TOP VALVE

## Uso e manutenzione: come mantenere efficienti le nostre guaine

## Utilisation et entretien: comment conserver les manchons trayeurs en parfait état

## Gebrauch und Wartung: So bleiben die Gummis perfekt

### Istruzioni:

- Controllare che bossoli e collettori non presentino parti acuminata in grado di danneggiare la parete della guaina.
- Verificare la presenza di eventuali corpi estranei all'interno della guaina ed immergerle in acqua calda per pochi minuti.
- Alloggiare la guaina all'interno del cannello e tirare con forza. Per le guaine "lunghe" (dotate di tubetto latte), assicurarsi che gli indicatori di posizione siano allineati sullo stesso asse verticale evitando così la torsione delle guaine all'interno del bossolo.

### Consigli:

- Verificare quotidianamente il regolare utilizzo e la corretta pulizia dei prodotti in uso.
- Evitare combinazioni di diversi detersivi, detersivi ad alta gradazione acida.
- Prodotti pulenti lasciati per un periodo di tempo prolungato a contatto con la guaina favoriscono la corrosione del materiale.
- Conservare i prodotti in luogo fresco, asciutto, lontano da raggi solari diretti, fonti di calore, sostanze corrosive.

### IMPORTANTE

Nel caso di utilizzo inappropriato delle parti di ricambio, la garanzia Spaggiari Industria Gomma non sarà applicabile.

### Instructions:

- Vérifier que les gobelets et les collecteurs ne présentent pas de parties pointues qui pourraient endommager la paroi du manchon.
- Vérifier si des corps étrangers se trouvent à l'intérieur du manchon en les plongeant dans l'eau chaude pendant quelques minutes.
- Placer le manchon à l'intérieur du gobelet et tirer avec force. Pour les manchons « longs » (dotés d'un tuyau court à lait), s'assurer que les indicateurs de position soient alignés sur le même axe vertical, évitant ainsi la torsion des manchons à l'intérieur du gobelet.

### Conseils:

- Vérifier quotidiennement que les produits utilisés soient correctement utilisés et propres.
- Éviter les mélanges de différents détergents, de nettoyeurs à forte teneur en acide.
- Les produits de nettoyage laissés pendant un certain temps au contact du manchon favorisent la corrosion du matériau.
- Conserver les produits dans un lieu frais, sec, loin des rayons directs du soleil, sources de chaleur, substances corrosives.

### IMPORTANT

En cas d'utilisation inappropriée des pièces de rechange, la garantie Spaggiari Industria Gomma ne pourra pas être appliquée.

### Anweisungen:

- Stellen Sie sicher, dass Gehäuse und Krümmer keine scharfen Teile haben, die die Gummilwand beschädigen könnten.
- Suchen Sie nach Fremdkörpern im Gummi und tauchen Sie es einige Minuten in heißes Wasser.
- Legen Sie das Gummi in die Kanüle und ziehen Sie fest. Achten Sie bei "langen" Gummis (ausgestattet mit einem Milchschauch) darauf, dass die Positionsanzeiger auf der gleichen vertikalen Achse ausgerichtet sind, um ein Verdrehen der Gummis im Inneren des Gehäuses zu vermeiden.

### Empfehlungen:

- Überprüfen Sie täglich den regelmäßigen Gebrauch und die korrekte Reinigung der verwendeten Produkte.
- Vermeiden Sie Kombinationen verschiedener Waschmittel, Waschmittel mit hohem Säuregehalt.
- Reinigungsmittel, die längere Zeit mit dem Gummi in Kontakt bleiben, fördern die Korrosion des Materials.
- Lagern Sie die Produkte an einem kühlen, trockenen Ort, fern von direkter Sonneneinstrahlung, Wärmequellen, ätzenden Substanzen.

### WICHTIG

Bei unsachgemäßer Verwendung von Ersatzteilen erlischt die Garantie von Spaggiari Industria Gomma.
